🪪 ABOUT

A Full Stack JavaScript developer from the Jersey Shore! I have a proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

💼 PROFESSIONAL EXPERIENCE

Software Engineer, *100devs*   Oct 2020 – present   Los Angeles, CA
- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Freelance Web Developer, *Regan Dev Agency*   Aug 2020 – present   Brick, NJ
- Conceptualized creative UX/UI interface solutions for clients' web presence.
- Developed websites using HTML, CSS, JavaScript and other modern frameworks.
- Maintained clients' websites by scheduling updates to improve performance.

Laborer Foreman, *Brooks Contracting Inc.* ⬀   Feb 2016 – Mar 2020   Tinton Falls, NJ
- Helped manage sub-contractors for new construction projects
- Managed a team of laborers to make sure production was up to code for inspection
- Developed luxury townhouse complexes from start to finish

🗂 RECENT PROJECTS

Campus Catalogs, *a place to buy and sell college textbooks.* ⬀
Following MVC structure, users can sign up with their email and search for used textbooks, or post their books for sale.
GitHub ⬀

StoryBooks, *Add public and private stories about your life.* ⬀
Users can sign up with Google and post stories to their dashboard.
GitHub ⬀

Robot Gypsy, *Upload a photo and the robot will guess your age!* ⬀
Using Microsoft Azure's cognitive services, this program will analyze an uploaded photo, and respond with the age of detected faces.
GitHub ⬀

AI Emotion Analysis, *Upload a photo and this program will analyze the emotions of detected faces!* ⬀
Using MS Azure's face API, users can upload a photo and the AI service will analyze the emotions in the detected face.
GitHub ⬀
